

# TELEMUS GROUP

## **Research Intern**

The Telemus Group seeks a graduate student for a part-time paid internship between September 2022 and May 2023, with a commitment of 10-15 hours per week. Work may either be done remotely or at the Telemus Group office in McLean, VA. Intern residency in the greater Washington, DC area is looked on favorably, but not a requirement for strong candidates.

## **Job Duties**

- Research technology trends, military doctrine and organization, and weapon systems to contribute to scenario and order of battle development.
- Investigate potential near-future shifts in great power geostrategy and global force posture and basing, with a particular focus on the Indo-Pacific region.
- Contribute writing for military orders of battle, descriptions of military platforms and systems, and geopolitical scenarios.
- Edit, proofread, and format documents, and assist in event planning.

## **Requirements**

- US Citizenship.
- Current pursuit of a graduate degree in security or strategic studies, military history, economics, or operations research.
- Proficiency with Microsoft Office Suite, particularly PowerPoint and Excel. Data presentation and the development of charts and images in PowerPoint will be a recurring responsibility.
- Demonstrated interest in military history, weapon systems, military doctrine and organization, basing and posture, and/or long-term geostrategic competitions.
- Superb analytic and writing skills, along with attention to detail.

## **Preferred Skills and Expertise**

- Prior military or defense-related experience.
- Operations research, force planning, military operations, net assessment, and defense budgeting coursework.
- Prior wargaming experience, either professional or via commercial games.
- Familiarity with the military doctrines, capabilities, and technical languages of leading global military powers. Demonstrated knowledge of operational concepts and theories of global military power projection.

- Ability to apply working knowledge of US diplomatic and military history, particularly via analogy to novel events.
- Experience with graphic design or photo editing software (e.g., Adobe Photoshop), and/or familiarity with data analytics tools like ArcGIS, Tableau, or R.

### **Application**

The Telemus Group is an Equal Opportunity Employer. Candidates who wish to apply for this position should send an email containing personal contact information to Cindy Fischer ([fischer@telemusgroup.com](mailto:fischer@telemusgroup.com)) no later than 15 September 2022, with attached cover letter, one- to two-page resume, and brief writing sample. To facilitate blind candidate review, please do not include name or contact information in attached documents. Cover letter should address information not included in the resume, including elaborating on your professional goals and interest in defense studies.
